

## Landscape Drip Products

Creating Beautiful Landscapes While Saving Water!

### XF Series Dripline and Insert Fittings

The Most Flexible, Pressure-Compensating Inline Emitter Tubing Available to Irrigate Ground Cover, Dense Plantings, Hedge Rows and More

- Extra flexible tubing for fast, easy installation
- Dual-layered tubing (brown over black or purple over black) provides unmatched resistance to chemicals, UV damage and algae growth
- Patent pending emitter design provides for increased reliability
- Longer lateral runs than competition
- XF-SDI with Copper Shield now available for under Turf or non Turf applications

XF Series Dripline

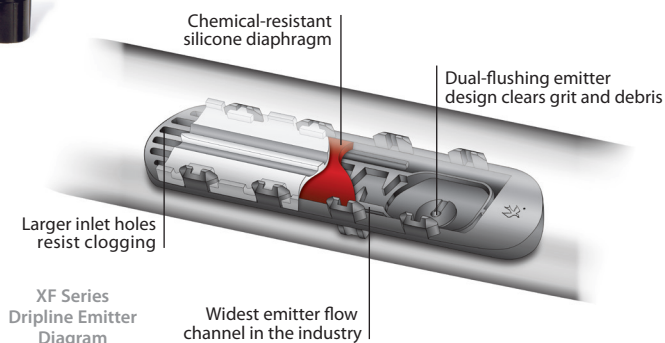

17mm Insert Fitting

Easy Fit Compression Fitting

#### Fittings

- Complete line of 17 mm insert fittings to simplify installation of XF Dripline
- Complete system of compression fittings and adapters for a wide range of 1/2" polyethylene tubing sizes 16mm to 18mm O.D.

### Xeri-Bug™ Emitters and Pressure-Compensating Modules

Point-Source Low- and Medium-Flow Emitters for Watering Container Plants to Larger Shrubs and Trees

- The only emitters with self-piercing barbs, making them the easiest to install using the Xeriman™ tool
- Widest selection of pressure-compensating emitters, with 9 flow rates and 2 inlet options
- Most compact and unobtrusive emitters

Model	Inlet Type	Nominal Flow (gph)
XB-05PC	Barb	0.5
XB-10PC	Barb	1.0
XB-20PC	Barb	2.0
XB-05PC1032	10-32T	0.5
XB-10PC1032	10-32T	1.0
XB-20PC1032	10-32T	2.0
XBT-10PC	1/2" FPT	1.0
XBT-20PC	1/2" FPT	2.0
PC-05	Barb	5.0
PC-07	Barb	7.0
PC-10	Barb	10.0
PC-12	Barb	12.0
PC-18	Barb	18.0
PC-24	Barb	24.0
PC-05-1032	10-32T	5.0
PC-07-1032	10-32T	7.0
PC-10-1032	10-32T	10.0

### Xeri-Sprays, Xeri-Bubblers and Misters

Ideal for Mass Plantings, Trees, Ground Cover, Annual Flower Beds, and Containers

- Adjustable flow and radius 0 to 13 feet
- Flows from 0 to 31 gph (0 to 117.34 l/h)
- Three convenient installation connections: 10-32 thread, 1/4" Barb, and 5" spike

## Multi-Outlet Emission Devices

Multiple Outlets for Increased System Flexibility

- Open Flow - EMT-6XERI
- Fixed Flow - XBT
- Variable Flow - XBD

## XQ 1/4" Distribution Tubing and Stakes

The strongest and most flexible 1/4" Distribution Tubing available

- Unique blend of polymers that give it the flexibility of vinyl with hold of poly.
- New textured finish improves handling.
- Self extracting coiling feature makes it easy to use, store and eliminates waste.

## SQ Series, Square Pattern Nozzles

The Most Precise and Efficient, Low-Volume Spray Solution for Irrigation of Small Areas with Dense Plantings

- Square spray pattern and pressure compensation offer increased efficiency and control, reducing overspray, property damage and liability
- One nozzle throws 2 1/2' or 4'

## Xeriman™ Tool and Tubing Cutter

- Xeriman Tool provides fast, easy, one-step installation of Xeri-Bug™ emitters and PC Modules
- Re-designed Xerigation Tubing Cutter allows for easier and cleaner cuts of all low-volume tubing

## Control Zone Kits and Spray-to-Drip Retrofit Kit

Rain Bird Control Zone and Spray-to-Drip Retrofit Kits provide all of the components necessary for on/off control, filtration, and pressure regulation in a single package, making them simple to order and easy to install.

- Rain Bird Control Zone Kits are the most reliable kits and contain revolutionary products such as the Low Flow Valve, Pressure Regulating (PR) Filter, and the Pressure Regulating (PR) Quick Check Basket Filter
- All kits in every category use the innovative PR Filter which combines the filter and pressure regulator into one unit. The PR Filter eliminates a separate component to help avoid leaks either during installation or over the life of the kit in the field.
- Rain Bird offers the most complete line of Control Zone Kits, giving contractors and specifiers the flexibility to meet every need from 0.2 to 40 gpm
- Retrofit Kit easily converts a conventional spray zone to a low-volume irrigation zone
